Christmas Party

The annual Christmas Party was held on December 11, 2011. Turnout was lower than normal due to numerous schedule conflicts. We were fortunate to have Jimmy Chang, President of the Toronto Chapter, attending this party as he was in town on business. After good food and drinks, those who attended the party continued to enjoy the subsequent karaoke session.

Joint School Valentine's Ball 2011

The Joint School Valentine's Ball will be celebrating its 25th anniversary in 2011. The Toronto Chapter was the original initiator of this annual event and led its organization for the many years, although we have opted out of it over 15 years ago. However the Toronto Chapter has decided to participate again in its organization but for its 25th anniversary only. We sincerely hope that many old boys will support this event and demonstrate once again we are something more.

Visit of Daniel Chung (70) from Vancouver Chapter

We were very delighted to have Daniel Chung (70), who was visiting Toronto, join us for dinner and drink on 17 Dec 2010. Daniel was no stranger to Toronto Chapter members, especially to the soccer team core players, because Daniel teamed up with our chapter soccer team to compete in the Global reunion soccer tournament in San Francisco only few months ago.

Initially, Daniel only planned to free himself for 2 hours for our gathering as he would have a long day helping out at a wedding the following day. However, we knew there would be lots of fun whenever teammates meet, so we ended up having dinner as well.

Besides reminiscing on the old days in La Salle, we shared some ideas. One of our lengthy discussions was about the Global Reunion in Vancouver in 2012. All the Toronto Chapter members who were present "vowed" they would participate in this meaningful event.

(3) Raffles Institution Singapore and La Salle College Kowloon Joint Maths Project - Three Maths teachers and four students from F5 and F6 from the Raffles Institution in Singapore visited La Salle College for a joint school programme with Ms Luk, Trevor Yu (6B), the Captain of Math Team, and Victor Kwok (6C), the Chairman of Math Society, on learning and preparation for the up and coming Global Math Olympiad. The Raffles Institution boys then joined La Salle College's F5 Math Team training after school. This partnership project is an example of future learning paradigms where schools and staff access global learning experiences for our boys beyond the limits of one confine or one country. Congratulations to the mathematics staff for being leaders with such initiatives. This activity builds on an earlier mathematics live-feed simultaneous maths lesson with a maths class at La Salle College and a maths class in Singapore being taught the same lesson at the same time. Our boys gained by being in a class, listening, learning, and interacting with Singapore students and their teachers, as well as with our own teacher.
